Schedule at a Glance

Monday, January 30
8:00am – 5:00pm  Accreditation Courses and Seminars

Tuesday, January 31
8:00am – 5:00pm  Accreditation Courses and Seminars
6:00pm – 9:00pm  Bowling Tournament

Wednesday, February 1
8:00am – 10:00am  General Session
     President’s welcome
     Keynote Speaker – Afterburners

10:15am – 11:00am  Breakout Session 1 (details inside)
11:15am – 12:00pm  Breakout Session 2 (details inside)
12:30pm  Contractor Awards Luncheon
2:30pm  Exhibit Hall Open
5:00pm – 6:00pm  Reception in Exhibit Hall

Thursday, February 2
7:00am – 7:45am  SPFA Business Session
8:30am – 10:30am  General Session
SPFA Committee & Activity Reports
Angela Austin: SPF Economic Report
10:45am – 11:30am  Breakout Session 1 (details inside)
11:45am – 12:30pm  Breakout Session 2 (details inside)

1:15pm – 2:00pm  Contractor Only Session
2:00pm – 5:00pm  Exhibit Hall Open
7:00pm – 9:30pm  Industry Reception

If history repeats itself, and the unexpected always happens, how incapable must man be of learning from experience — George Bernard Shaw

Surely this quote suggests that if history does in fact repeat itself, then it should be impossible for the unexpected to also always happen. If we fail to learn from our history and fall victim to the unexpected, due to lack of vision, lack of transference of historical perspective and knowledge from past to present, then we can all look forward to learning the same hard lessons all over again.

That transference of industry knowledge and perspective, and ability to foresee the challenges and opportunities that lay ahead for us, really is the purpose of SPFA. The organization is populated by both old-timers and newcomers. Those that are new to our industry, drawn by profitability, survival, desire to get onboard with a fantastic energy efficient technology and way to grow their business, are presented with a complex material and application process. A confluence of building science, sustainability pressures, uncertain economic conditions, a more knowledgeable and demanding customer base, and a variety of products that each require a unique understanding, add to the challenge. Truly the installation of SPF requires a skilled craftsman, and the end-performance of SPF requires a safe, quality installation. Period. How is one to position him/herself to be successful and hit all the bases?

I assure you the folks that formed the original Urethane Foam Contractors Association, the precursor to SPFA back in 1974, were faced with the same questions. Thankfully many of them are still around.

As we prepare for the 2012 offering of the SPFA Annual Convention and Expo, which will recognize SPFA’s 25th Anniversary in its current Alliance form (1987), we will have a chance to reflect upon how this industry was formed, the course it has taken, and the challenges and opportunities that confront all of us as we endeavor to make SPF the insulation and roofing material of first-choice among customers. We will address training and best practices to make sure we are doing everything possible to make every professional SPF contractor the best, most consistent, reliable and quality-focused they can be. We will address safety and the current climate of relations with interested federal agencies. We will look at the materials, tools, and skills of the trade that each professional needs to be successful. We will award contractors in our annual Contractor Excellence Program for their demonstration of their capabilities. And we will offer you an exhibit floor full of the best and biggest product and service providers the industry has to offer.

We will pull together all the old-timers that have been going to the convention forever, the newcomers looking to pick up critical information on how to be safe and successful, and everyone in between to facilitate a transfer of knowledge and experience. Because that is what we do. Every day. If you have a stake in the SPF industry, there is no place you should be Jan. 30 – Feb 2, 2012 other than Dallas, TX. We are at one of many major turning points for the industry – I invite you to join us as we learn from our past and construct our collective future.

Kurt P. Riesenber
Executive Director, SPFA
SPFA Accreditation Courses give you the professional edge!

The accreditation program consists of a series of courses, examinations, and experience requirements. Accreditation is an individual accomplishment and gives you a sense of achievement and shows dedication to the industry. We will be offering seven SPFA courses at Spray Foam 2012.

Accreditation Courses and Seminars

- **Intro to Spray Polyurethane Foam**: If you are new to SPF or need a refresher on the basics - this is the course for you! Develop that solid foundation upon which more advanced learning is possible.
- **Jobsite Safety**: One of the greatest complexities in SPF is understanding how to be safe on a worksite with all the other things going on around you. This comprehensive course represents the best of chemical safety training from the Center for the Polyurethanes Industry (CPI), in conjunction with the industry’s collaboration with federal safety agencies. It also represents the best of non-chemical safety training covering the typical types of hazards an SPF crew will encounter on a worksite.
- **Roofing Overview for SPF Contractors**: As a roofing contractor, you will certainly spray foam over a BUR or other material at some point. You need to know what is under there and how to deal with it to assure a quality job. This course teaches you about all roofing other than SPF.
- **ABAA Certified Applicator Training (2 days)**: The Spray Polyurethane Foam installer training course consists of both theory and practical instruction. The classroom portions of training emphasizes understanding the need for and function of an air barrier assembly, the ability to select and install the correct material in SPF application, the ability to confirm proper installation through on-site testing and the documentation required throughout the air barrier installation process.

**NOTE**: Cost of these Courses and Seminars are NOT included in the Convention Registration.
Tuesday, January 31  ★  6:00 pm - 9:00 pm
Bowling Tournament

Kick off your convention week catching up with old friends and making new ones at the 2012 Convention and Expo Bowling Tournament! Enjoy a buffet dinner and beer, wine, and soft drinks. Then showcase your bowling skills while your team competes for prizes. The schedule for this event is as follows:

5:30 pm  Depart from the InterContinental Dallas to 300 Dallas
6:00 – 9:00 pm  Buffet dinner and beer, wine, and soft drinks
Bowling Tournament
9:00 pm  Tournament conclusion, prizes awarded
9:15 pm  Depart for the InterContinental Dallas

Bowling Tournament tickets can be purchased during the registration process or as an add-on purchase after registration for $85.

WEDNESDAY, FEBRUARY 1, 2012
General Session  8:00 AM – 10:00 AM

Presidents Welcome
Keynote Speaker: Afterburner - Plan, Brief, Execute, Debrief. In just four simple steps your team can improve execution AND stay one step ahead of the competitive rate of change in your industry.

Federal Agency & Industry Activities:
Carol Hetfield of EPA will provide a brief perspective on the accomplishments, on-going initiatives, and challenges ahead in coordinating a federal partnership on SPF and working collaboratively with the SPF industry.

BREAKOUT SESSION 1  10:15 AM – 11:00 AM

Potential Problems with Building Envelope Remodel & Retrofit: There are many factors to consider that affect the final outcome. Attend this session to discuss these factors, what can be done proactively to reduce problems, and what can be done during and after application to address coverage, adherence, odor and other challenges to assure your customer’s satisfaction.

Building Codes and the SPF Professional: The codes are always changing – from ICC building, energy and fire codes, to ICC-ES Acceptance Criteria for SPF – you need to have the latest information on all of the recent changes so you can comply and be successful. Will also include suggestions for building a good working relationship with your local code official.

Seal Your Way to No Leaks: Attend this session to learn the differences between roofing sealants and sealants for other uses, proper method of sealing with silicone and its advantages, and other options. This session will include demonstrations of proper sealing techniques.
Using RoofPoint to Promote Sustainable SPF Roofs: Jim Hoff, Director for the Center for Environmental Innovation in Roofing, will review the key features and benefits of RoofPoint which was launched in a nationwide pilot program in 2011. The session will focus on the opportunity RoofPoint offers to showcase the sustainable attributes of modern SPF roofing systems and provide the attendees with the tools necessary to participate in the RoofPoint program.

RESNET: RESNET works closely with insulation contractors, HVAC contractors, energy officials and inspectors. It is engaged in promoting energy efficiency-related legislative priorities and practical market-based incentives to open the door for the growth of energy efficiency related services. In addition to the RESNET partnership with SPFA, it also has many partnerships with related industries. Attend this session to get the latest on RESNET activities and priorities, and let Steve Baden, Executive Director of RESNET, connect all the dots for you.

BREAKOUT SESSION 2 11:15 AM - 12:00 PM

Legislative Update: Changes in Congress from recent elections to the legislative priorities are in constant flux. What do you need to watch and how will it impact you – where are the advantages? From Energy Efficiency Tax Rebates (25C) to low rate energy upgrade loans, mortgage-linked valuations of energy upgrades (SAVE Act), and performance-based tax incentives – you need to see how the landscape will affect you to continue making your SPF business grow and be competitive.

Accreditation/Training update: The SPF industry has grown considerably over previous years. Continuing that growth will require the proper training, developing the knowledge, skills and abilities that each contractor must possess to demonstrate their commitment to safety and quality. Pursuing a path to professionalism in this industry means having the right training. Period. Attend this session to find out the latest on SPF training opportunities and how this fits into your business.

CPI Industry Update – C.A.P./Research Initiatives: The Center for the Polyurethanes Industry (CPI) will provide information relating to recent federal EPA Chemical Action Plan (MDI) activities and what that means for you in the SPF industry, as well as ongoing research and H+S activities that you need to know as an SPF professional.

Digital Marketing for Spray Foam Contractors: This presentation will focus on the major shift in marketing trends from traditional media to digital media. It will cover all the types of digital / internet marketing available today and which ones work best for spray foam contractors.

Contractor Industry Excellence Awards Luncheon 12:30 PM – 2:00 PM

Join SPFA and industry peers at the premier celebratory event honoring innovative and trail-blazing contractors and their projects. The Contractor Industry Excellence Awards recognizes SPFA contractor members exceptional accomplishments for the quality of their work, the uniqueness of the project, speed of application, superiority of polyurethane, ability of foam to conform to unusual/irregular surfaces, and special safety considerations.

There are five award categories: Residential Wall, Commercial Wall, SPF Roof under 40,000sq.ft., SPF Roof over 40,000sq.ft., and Specialty Applications (formerly Tanks & Vessels and Other). Submit your project today…it's easier than you think. Go to www.sprayfoam.org or http://awards.diligence.biz. You can’t win if you don’t submit a project.
**Exhibit Hall – with Reception in Exhibit Hall (5-6pm) 2:30 PM - 6:00 PM**

The Exhibit Hall is the one stop shop for anyone looking for information on safety equipment and PPE, raw/blended materials, spraying equipment, industry service providers and much more! The Opening Reception, a premiere networking opportunity incorporated into the exhibit hall, has become a much-anticipated event. The reception is an ideal place to network with peers and build new relationships. Food will be served and cash bars will be available.

**THURSDAY, FEBRUARY 2, 2012**

**SPFA Member Business Session** 7:00 AM – 7:45 AM  
SPFA Annual Membership Business Meeting. All members invited.

**General Session** 8:30 AM – 10:30 AM

**SPFA Committee & Activity Reports**

**Global Spray Foam Market Review 2011**

Angela Austin will present a short report on trends and issues affecting the global SPF industry, including the effects of the interim ban on SPF in the Chinese construction market, developments in the demand for low pressure foam and a global review of the OCF markets. A focused review of trends in the North American markets including housing data and consumer trends will also be included. Data presented here has come from various published sources, presentations and interviews across the industry.

**BREAKOUT SESSION 1 10:45 AM – 11:30 AM**

**Understanding System-Wide approach to HVAC:*** Attend this session to learn about essential HVAC practices needed to optimize home energy performance and comfort when insulating a home with spray polyurethane foam insulation.

**NRCA’s 2012 SPF Manual and Technical Updates:** James Kirby, AIA, NRCA’s AED of technical communications, will discuss the recent update of The NRCA Roofing Manual: Metal Panel and SPF Roof Systems—2012, and provide relevant technical information about roof system performance, emerging technologies and issues affecting the industry and professional roofing contractors.

**Ignition and Thermal Barriers – Sorting Through the Confusion:**

It seems like every year the testing requirements for ignition and thermal barriers over SPF change. This has led to considerable confusion and ongoing questions from contractors, designers and building inspectors about these systems. Starting from a review of the basics, this session will cover what your legal obligations are as well as how to verify the performance characteristics of various products. Along the way it will touch on how and why requirements have changed and continue to evolve.

**Federal Agency Update:** Draft Federal Ventilation Guidance for Spray Polyurethane Foam Application. EPA and ERG will present recently released guidance from the federal government regarding ventilation practices for SPF application.
Blower Door/Infrared Scanners – High Performance Diagnostics:
This session will discuss the use of blower doors and infrared scanners as building envelope diagnostic tools. There will also be a discussion of recent energy code changes that relate to building envelope tightness.

Respirator Cartridge Change-outs: The key focus of the Spray Polyurethane Foam (SPF) industry is safety, the safety of applicators, workers, other trades and homeowners. Respiratory protection is recommended for the application of SPF. A key component of a respiratory protection plan is the change out schedule of the respirator cartridges. This session discusses the environmental and other variables that impact the frequency of respirator cartridge change out.

LCA update: In this session you will learn what a Life Cycle Assessment (LCA) is and how it is used to measure key environmental impacts of a product. An LCA compliant with the standards for conducting LCAs, ISO 14040/44, is essential in providing credible information on environmental impacts of products for green building codes, building certifications and Environmental Product Declarations (EPDs), as well as for demonstrating product sustainability and supporting marketing claims in general. A summary of the recently completed industry-wide LCA for several representative SPF insulation products will be presented. This summary will focus on energy use and several environmental impact categories from cradle-to-grave, including the contributions from raw material extraction, chemical processing and blending, transportation, installation, use and disposal of spray foam products.

Are Elastomeric Coatings Right for You?: Tolyurea and other thick-film elastomers can be sprayed through the same equipment used for spray polyurethane foam. But should you? What’s the market application when your primary business is insulation? Can these products be a good fit for you? Come learn from PDA whether you can efficiently bid and win more work to keep your equipment and skilled technicians busy spraying thick-film elastomeric coatings.

Contractor ONLY Session 1:15 PM - 2:00 PM
SPFA was established with direct value to the contractor as the primary goal. SPFA is interested in having a straight-forward discussion on the most pressing issues of the day for our contractor community. Show up and tell us what we can be doing for you. ALL contractors welcome.

Exhibit Hall 2:00 PM - 5:00 PM
The Exhibit Hall is the one stop shop for anyone looking for information on safety equipment and PPE, raw/blended materials, spraying equipment, industry service providers and much more!

Industry Reception 7:00 PM - 9:30 PM
This Year’s theme is the 1980’s! Celebrate 25 years of the SPFA! Break out your neon shirts, parachute pants, or acid washed jeans and re-live the 80s. We’ll be closing the show with dinner and entertainment.

*All times and events are subject to change. Please check website for current information.
Event Location and Hotel Reservations

InterContinental Dallas
15201 Dallas Parkway, Dallas, TX 75001 • 800-386-1592

Hotel Reservations are to be made directly to the InterContinental Dallas. On-line reservations can be made at www.sprayfoam.org or call 800-386-1592 and use Convention code SprayFoam2012.

Room rates are $149 single or double. All reservations must be made before January 13, 2012 or the above rate is not guaranteed.

The following additional amenities were negotiated on your behalf:
- Complimentary In-Room High Speed Internet Access
- Complimentary Parking for all attendees
- Complimentary Health Club usage
- Complimentary transportation service from 7:00 am – 10:30 pm, daily, within a three-mile radius of the hotel

Polished Style In Prestigious North Dallas. InterContinental Dallas is in Addison, a northern suburb between central and thriving Frisco and Plano. The Galleria Dallas and Addison’s restaurant district are a few minutes away, and the Dallas North Tollway will have you in the city centre in half an hour or less. Must-see stops are the Nasher Sculpture Center and The Sixth Floor Museum at Dealey Plaza. With more than 175 restaurants of every taste and style, Addison offers plenty to tempt your taste buds. After dinner, dance the night away or just enjoy one of our many popular nightspots. Memphis, Sambuca’s, Mercy Bar, The Improv Comedy Club, Gloria’s, Ernie’s, Pete’s Dueling Pianos, and the Flying Saucer to name just a few.
Cavanaugh Flight Museum: The Cavanaugh Flight Museum encompasses nearly 50,000 square feet of aircraft and artifacts spanning the time period from World War I through the Vietnam conflict.

Dallas Museum of Art: The Museum houses collections encompassing nearly every culture in human history. The Museum has important collections of European and American painting and sculpture, postwar American art, decorative arts and Asian, pre-Columbian and African art.

Dallas World Aquarium and Rainforest: Features 80,000 gallons of saltwater exhibits including sharks, stingrays and hundreds of reef fish, all living in coral reef ecosystems. The immersion rainforest exhibit features plants and animals from Venezuela, along the Orinoco river. Hours: 10:00 am - 5:00 pm, seven days a week.

Pete's Dueling Piano Bar: Biggest party in Town. Pete's is know for singing loud and proud. Audience will hear the classics from the Beatles, to the Rolling Stones, Aretha Franklin, K.C. and the Sunshine Band, Culture Club, Billy Joel, Elton John, Dave Matthews and Many others.

SpeedZone: A park built around speed and competition, incorporates real racing action, indoor interactive entertainment and great food to create a one-of-a-kind entertainment experience.

Texas Stadium: The home of the Dallas Cowboys has 63,855 covered seats and 296 exclusive “sky boxes.” Texas Stadium also hosts concerts and other events year-round.

The Sixth Floor (JFK) Museum: An educational exhibit and memorial to the life, death and legacy of President John F. Kennedy.

The Village on the Parkway: The Village on the Parkway is home to dozens of one-of-a-kind stores, services, and restaurants–conveniently located in the very heart of Addison.

Town Hall Square: The square is home to some of the best dining, salons, and shops in town.

For more to do please visit www.addisontexas.net.
EDUCATION COURSES & SEMINARS
Monday, January 30  8:00 am – 5:00 pm
Tuesday, January 31  8:00 am – 5:00 pm

CONVENTION HOURS
Wednesday, February 1  8:00 am – 12:00 pm
Thursday, February 2  8:30 am – 12:30 pm

EXHIBITION HOURS
Wednesday, February 1  2:30 pm – 6:00 pm
Thursday, February 2  2:00 pm – 5:00 pm

REGISTRATION AND CANCELLATIONS POLICIES
All requests for cancellation must be submitted in writing. Registrations cancelled in writing prior to January 20, 2012 will receive a full refund, less a $50 cancellation fee. No refunds will be given after January 20, 2012.

FOOD SERVICE
Lunches will be provided to Accreditation and Seminar attendees, including instructors on Monday and Tuesday. The Contractor Excellence Awards lunch tickets will be provided at the registration desk to all Full Conference badge holders, Wednesday Only badges holders, and Exhibitor Personnel badge holders. The Awards Lunch ticket must be presented at the door for entrance to the luncheon. Coffee breaks will be provided each day as well.

SPECIAL EVENTS
Two (2) drink tickets will be provided for attendees to use at either the Opening or Closing Receptions. Cash Bars will be open during the receptions.

DRESS CODE
The dress code for all official conference activities is business casual.

GROUND TRANSPORTATION
Addison Airport (ADS)
Distance 2 MI / 3.22 KM NORTH WEST to Hotel
Time by taxi: 10 minutes

Dallas Fort Worth International Airport (DFW)
Distance 20 MI / 32.19 KM SOUTH WEST to Hotel
Time by taxi: 30 minutes

Dallas Love Field (DAL)
Distance 11 MI / 17.7 KM SOUTH WEST to Hotel
Time by taxi: 20 minutes

Registration Information

THREE EASY WAYS TO REGISTER
Registration is as easy as 1-2-3! You can register online, by mail, or fax. To ensure the accuracy of your registration, we ask that all registrations be submitted in one of the following ways (phone registrations will not be accepted):

1. ONLINE: www.sprayfoam.org
   (EASIEST & PREFERRED METHOD)
2. FAX: 401-765-6677
3. MAIL: Spray Foam 2012 c/o ExpoTrac
   PO Box 1280
   Woonsocket, RI 02895

Registrations will not be processed until payment is received.

Registration Cancellation Policy
Refund requests must be received in writing prior to January 20, 2012 ($50 cancellation fee). No refunds will be given after January 20, 2012.

Cut-off date to pre-register is January 20, 2012. Afterwards, ALL registrations must be done onsite.

Note: All sessions, times, and descriptions are subject to change based upon speaker expertise and availability. For specific information on speakers and official timeline of events at the conference, please visit www.sprayfoam.org.

All registration information, including Accreditation Courses, available on fold-out.

“The SPEA is working day and night for the best interests of the SPF industry – for both me and my competitors. We all need to have the latest information and be the best stewards of our industry. One of the ways to do that is come to the convention and pick up all the information you can to be the best contractor and representative of our industry.”

— Sig Hall, Western Pacific Roofing, SPFA President (California)

“The SPEA Convention is an event by contractors, for contractors. We have the whole value chain present and working in your best interest. But to benefit, you need to be here. No free-riders on the backs of the people doing the important work. The notion that “they” will get the work done and represent the industry is in fact true, but it is also just as true that the “they” is you. Do your part, get involved, and start by coming to the convention.”

— Todd Henderson, Vice President, Henderson-Johnson Company, SPFA Convention Chair (New York)
