Training Requirements

Complete Field Examiner observation procedures and documentation process training course.

Other Requirements

Record Field Examinations and keep electronic files for 5 years.

Written examination knowledge areas

The SPF Field Examiner written examination covers critical areas of knowledge that each candidate is required to demonstrate. The written examination shall provide documented proof of the SPF Field Examiner's knowledge to be able to observe and document an installer's abilities for the installation of SPF in a safe and consistent manner.

Knowledge Area	Weighting (%)
Documentation	5%
Pre-installation	10%
Equipment/rig	5%
Installation	15%
Post installation	5%
ISO 17024 requirements	15%
Staging a Job Site or Mock Up	5%
Pre-Installation Instructions	5%
Observation of the Installer	15%
Recording Installer's Ability	5%
Safety During Field Exam	10%
Field Examiners Conduct During Field Exam	5%

Exam will consist of 150 questions

Passing grade for written examination is 75%. The examination is available in English language only and Spanish should be available by late 2013.

Note: See the Written Examination section for more complete information
